Gaucher's disease with portal hypertension: case report (Javett, Kew, and Liknaitsky) (BCLO), 810
Genetics, human (McKusick) (B. rev.), 145
Globulin, beta-1C, determinations, fluorescent and electron microscopic studies of kidney biopsies and their correlation with (Grossman, Hyman, and Biava) (Abst.), 846
Glomerulonephritis, acute, without abnormality of urine (Albert, Leeming, and Scaglione), 525
Glucose, blood, effect of fluid and calorie deprivation on, in premature neonate (Beard et al.), 329
serum insulin, and free fatty acids in response to intravenous tolbutamide in normal children compared with chemically diabetic and frankly diabetic children, measurements of (Wohltmann et al.) (Abst.), 847
tolerance, variations during infancy and childhood (Loeb), 237
Glycogenosis, cardiac, hemodynamic, angiocardiographic, and electron microscopic findings (Hernandez et al.), 400
Graft-versus-host reaction? Aplastic anemia and alymphocytosis in infant with hypogammaglobulinemia (Hathaway et al.), 713
Growth hormone treatment in hypopituitary dwarfs, personality maturation and response to (Money and Pollitt), 381

H

H, O and, agglutinins, production by newborn infant infected with *Salmonella st. paul* (Hodes et al.), 780
Health, community, and social services, guide for referral of families to (Department of Maternal and Child Health, Harvard School of Public Health) (B. rev.), 492
Heart disease, congenital, deafness, and skeletal malformations: new syndrome? (Forney, Robinson, and Pascoe), 14
cyanotic congenital; Ebstein's anomaly of tricuspid valve (Farber and Vawter) (CPC), 817
failure, intractable congestive, of infancy and childhood, peritoneal dialysis in treatment of (Nora et al.), 693
fetal cardiac failure resulting from congenital anomalies of (Moller, Lynch, and Edwards), 699
nonpenetrating trauma to (Goldring et al.), 677
Hematopoieses, abnormal, in 2 of 3 siblings with mongolism (Behrman, Sigler, and Patchefsky), 569
Hemodynamic, angiocardiographic, and electron microscopic findings in cardiac glycogenosis (Hernandez et al.), 400
Hemoglobin, fetal, in peripheral blood, test for detection of (Cassimos and Mamalos) (BCLO), 659
Hemophilic children and their families, social and behavioral studies on (Mattsson and Gross), 952
Hemorrhagic fever, dengue, in Thailand, 1964, clinical and physiologic manifestations, shock associated with (Cohen and Halstead), 448
Hepatolenticular degeneration: comparative effectiveness of D-penicillamine, potassium sulfide, and diethyldithiocarbamate as decoppering agents (Hsia et al.), 921
Hereditary leukokeratosis; white mouth (Scott), 768
nephritis (Farber and Vawter) (CPC), 661
spherocytosis and sickle cell trait in Negro (Rodriguez et al.), 589
Herpes simplex, infection, generalized fatal, in newborn infant, demonstration of viruria (Chang, Solomon, and Weinstein) (BCLO), 473
Heterozygote, atypical phenylketonuric, deficiency in phenylalanine hydroxylase and transaminase activity (Anderson et al.), 351
Heterozygous, infant, for gene of phenylketonuria, diagnostic and therapeutic implications of persistent hyperphenylalaninemia in (Schneider and Garrard), 704
Histiocytosis X, communicating hydrocephalus infrequently recognized complication of (Nesbit et al.) (Abst.), 838
Holoprosencephaly/arhinencephaly: case with no biochemical abnormalities (Shapiro and Elkin) (BCLO), 814

Homozygotes to galactosemia, symptomatic and asymptomatic, in one Negro sibship (Baker et al.), 551
Hormone, growth, treatment in hypopituitary dwarfs, personality maturation and response to (Money and Pollitt), 381
Hospital, child goes to (Geist) (B. rev.), 492
Hydrocephalus, communicating, infrequently recognized complication of histiocytosis X (Nesbit et al.) (Abst.), 838
Hydrogen ion concentration, intracellular, of whole body and various rat tissues, in vivo determinations: pH_i (Addanki et al.) (Abst.), 848
Hydroxylase, phenylalanine, and transaminase activity, deficiency, in atypical phenylketonuric heterozygote (Anderson et al.), 351
Hyperbilirubinemia, neonatal, effect of triiodothyronine on (Morrow et al.), 413
Hyperphenylalaninemia, persistent, in infant heterozygous for gene of phenylketonuria, diagnostic and therapeutic implications (Schneider and Garrard), 704
Hyperplasia, nodular adrenal, in infancy, Cushing's syndrome with (Klevit et al.), 912
Hypertension, portal, Gaucher's disease with: case report (Javett, Kew, and Liknaitsky) (BCLO), 810
Hyperuricemia, bilateral choreoathetosis, self-mutilation, and mental retardation: clinical syndrome and course in 6 males treated with uricosuric agents (Michener) (Abst.), 851
extreme, in leukemia, syndrome associated with (Sinks et al.), 578
Hypogammaglobulinemia, aplastic anemia and alymphocytosis in infant with: graft-versus-host reaction? (Hathaway et al.), 713
Hypopituitary dwarfs, personality maturation and response to growth hormone treatment (Money and Pollitt), 381
Hypoplasia or congenital absence of radius with ventricular septal defect: ventriculoradial dysplasia (Harris and Osborne), 265
Hypothermia and resuscitation of asphyxiated fetal rhesus monkeys (Daniel et al.), 45

I

Iliofemoral venous thrombectomy in child with coagulation abnormality (Mack, Hartmann, and Sauvage), 374
Imipramine in enuresis (Tec) (Letter), 323
Immunization of infants, attenuated poliovirus vaccines grown in human diploid cell strains for (Pagano), 189
Immunoglobulin measurement, serum, during first year of life and in immunoglobulin-deficiency states (Fulginiti et al.), 723
Indian children, prospective study of skin infections and their complications in (Anthony, Perlman, and Wannamaker) (Abst.), 845

Mental retardation, facial abnormalities and, broad thumbs and broad great toes with (Johnson), 942
hyperuricemia, bilateral choreoathetosis, and self-mutilation: clinical syndrome and course in 6 males treated with uricosuric agents (Michener) (Abst.), 851
myotonic dystrophy neglected cause of (Calderon), 423
6-Mercaptopurine or methotrexate, induction of remission in acute leukemia of childhood by combination of prednisone and either (Krivit et al.), 965
vincristine, prednisone, and fresh plasma transfusions, treatment of chronic idiopathic thrombocytopenia with (Reiquam and Prosper), 885
Mercury intoxication, acrodynia secondary to (Farber and Vawter) (CPC), 480
Metabolism, bilirubin, and coagulation mechanism in newborn, effect of use of vitamin K_1 in pregnancy (Owen et al.) (Abst.), 850

Metabolism—Cont'd
galactose, in congenital galactosemia, observations on influence of orotic acid on (Segal, Roth, and Blair) (BCLO), 135
L-tryptophan, in phenylketonuria (Yarbro and Anderson), 895
Methandrostenolone (Dianabol): controlled study of anabolic and androgenic effect in children (Whitelaw, Foster, and Graham), 294
Methotrexate, 6-mercaptopurine or, induction of remission in acute leukemia of childhood by combination of prednisone and either (Krivit et al.), 965
Methsuximide and diphenylhydantoin, acute intoxication due to (Schulte and Good), 635
Methysergide maleate therapy, thrombophlebitis secondary to (Fenichel and Battiata), 632
Metyrapone, response in children with rheumatic diseases (Ruvalcaba et al.), 257
Milk, evaporated, selenium concentration in (Hadjimarkos) (BCLO), 470
Mineral composition of meconium (Kopito and Shwachman) (BCLO), 313
Mitochondria, distribution of bilirubin between albumin and (Odell), 164
placental, studies of: method of recovery and oxidative phosphorylation using mitochondria from human and rat placentas (Graven) (Abst.), 849
Mongolism, abnormal hematopoieses in 2 of 3 siblings with (Behrman, Sigler, and Patchefsky), 569
and "Down's syndrome," origin of terms (Christie and Gladish (Editor's column), 675
Mortality, perinatal, caused by *Vibrio fetus* (Eden), 297
Mouth, white; hereditary leukokeratosis (Scott), 768
Mucosa, intestinal, β-galactosidase activity in human (Hsia et al.) (Abst.), 853
Mucus casts of nostrils, diagnostic aid in choanal atresia (Narkewicz) (BCLO), 980
Mumps myocarditis, atrioventricular dissociation associated with Adams-Stokes syndrome presumably due to (Thompson and Nolan), 601
case report (Leonidas, Athanasiades, and Zoumboulakis) (BCLO), 650
Muscle cell composition in children with renal tubular dysfunction, studies of (Torres-Pinedo, Kooh, and Metcoff), 932
Mutilation, self, hyperuricemia, bilateral choreoathetosis, mental retardation, and clinical syndrome and course in 6 males treated with uricosuric agents (Michener) (Abst.), 851
Myasthenia gravis, neonatal (Nichols) (BCLO), 656
Myeloid differentiation as cause of congenital neutropenia, failure of (Wriedt, Kauder, and Mauer) (Abst.), 839
Myocarditis, mumps, atrioventricular dissociation associated with Adams-Stokes syndrome presumably due to (Thompson and Nolan), 601
case report (Leonidas, Athanasiades, and Zoumboulakis) (BCLO), 650
Myotonic dystrophy, neglected cause of mental retardation (Calderon), 423

N

Nail-patella syndrome (Lucas and Opitz), 273
Neonatal hyperbilirubinemia, effect of triiodothyronine on (Morrow et al.), 413
jaundice, prolonged, in breast-fed infant, studies of (Gartner and Arias), 54
meningococcal meningitis (Stiehm and Damrosch) (BCLO), 654
myasthenia gravis (Nichols) (BCLO), 656
thyroid function—free thyroxine in infancy (Marks, Hamlin, and Zack), 559
Neonate, premature, perinatal stress and, effect of fluid and calorie deprivation on blood glucose (Beard et al.), 329
valved mask for respiratory studies in (Silverman, Sinclair, and Buck) (BCLO), 468
Nephritis, hereditary (Farber and Vawter) (CPC), 661
Nephrosis, aminonucleoside, in rat, effect of cyclophosphamide on lipoid nephrosis in human and on (West, Hong, and Holland), 516
lipoid, in human, and aminonucleoside nephrosis in rat, effect of cyclophosphamide on (West, Hong, and Holland), 516
long term study of children treated with corticosteroids (Cornfeld and Schwartz), 507
Neuritis, optic, with prolonged use of chloramphenicol (Cocke, Brown, and Geppert), 27
and retrobulbar, in cystic fibrosis following chloramphenicol administration (Huang et al.), 32
Neuropathy, congenital familial sensory, with anhidrosis (Pinsky and DiGeorge), 1
Neutropenia, congenital, failure of myeloid differentiation as cause of (Wriedt, Kauder, and Mauer) (Abst.), 839
Newborn infant, absorption of vitamin K from colon (Aballi, Howard, and Triplett) (BCLO), 305
generalized fatal herpes simplex infection in, demonstration of viruria (Chang, Solomon, and Weinstein) (BCLO), 473
infected with *Salmonella st. paul*, production of O and H agglutinins by (Hodes et al.), 780
iron deficiency anemia in (Eshaghpour, Oski, and Naiman) (BCLO), 806
thrombocytopenia in (Fleury) (Letter), 829
treatment of respiratory failure (Cook) (Editor's column), 327

Newborn—Cont'd
lamb, factors mediating decrease in pulmonary vascular resistance in (McMullen, Kittle, and Lauer) (Abst.), 836
and small infants, modified electrode and lead assembly for vectorcardiography in (Ainger and Campbell) (BCLO), 141
use of vitamin K_1 in pregnancy: effect on bilirubin metabolism and coagulation mechanism in (Owen et al.) (Abst.), 850
Nodule, breast, in full-term infant and in infants born of mothers with diabetes mellitus (Keitel and Chu) (BCLO), 983
Nostrils, mucus casts of, diagnostic aid in choanal atresia (Narkewicz) (BCLO), 980

O

O and H agglutinins, production by newborn infant infected with *Salmonella st. paul* (Hodes et al.), 780
Optic neuritis with prolonged use of chloramphenicol (Cocke, Brown, and Geppert), 27
and retrobulbar neuritis in cystic fibrosis following chloramphenicol administration (Huang et al.), 32

Orotic acid and experimental galactosemia (Schmidt et al.) (BCLO), 138
influence on galactose metabolism in congenital galactosemia (Segal, Roth, and Blair) (BCLO), 135
Oxygen and air in hyperbaric chamber or by positive pressure ventilation in resuscitation of newborn rabbits, comparison of (Campbell et al.), 153
tension in capillary blood, microtechnique for measurement of (Spock, Hinton, and Albertson) (BCLO), 987

P

Pancreas, cystic fibrosis, atypical *Pseudomonas aeruginosa* associated with (Doggett et al.), 215
salivary secretion of ABH blood group substances in cystic fibrosis of (Virtanen) (BCLO), 139
Papilledema, familial anomaly simulating: case report (Fite and Lewis), 927
Paroxysmal ventricular tachycardia (Chandra) (Letter), 1003
Pediatric practice, paramedical personnel in (Townsend), 855
surgery, atlas of (White) (B. rev.), 1002
Pediatrics, academic, training for (Gordon) (Editor's column), 500
general, is not dead! (Plaut) (BCLO), 981
recent advances in (Gairdner) (B. rev.), 145
Penicillin G, buffered, and phenoxymethyl penicillin in treatment of streptococcal pharyngitis, comparison of efficacy (Edmond et al.), 442
Perinatal listeriosis (Blattner) (Comments), 667
stress and premature neonate, effect of fluid and calorie deprivation on blood glucose (Beard et al.), 329
Peritoneal dialysis in treatment of intractable congestive heart failure of infancy and childhood (Nora et al.), 693
Personality maturation and response to growth hormone treatment in hypopituitary dwarfs (Money and Pollitt), 381
Personnel, paramedical, in pediatrics (Townsend), 855
pH_i: in vivo determination of intracellular hydrogen ion concentration of whole body and various rat tissues (Addanki et al.) (Abst.), 848
Pharyngitis, streptococcal, comparison of efficacy of phenoxymethyl penicillin and buffered penicillin G in treatment (Edmond et al.), 442
Phenoxymethyl penicillin and buffered penicillin G in treatment of streptococcal pharyngitis, comparison of efficacy (Edmond et al.), 442
Phenylalanine determination, cooperative study of two methods for: McCaman-Robins fluorimetric and microbiologic inhibition methods (Koch et al.), 905
hydroxylase and transaminase activity, deficiency, in atypical phenylketonuric heterozygote (Anderson et al.), 351
Phenylketonuria, diagnostic and therapeutic implications of persistent hyperphenylalaninemia in infant heterozygous for gene of (Schneider and Garrard), 704
L-tryptophan metabolism in (Yarbro and Anderson), 895
Phenylketonuric heterozygote, atypical, deficiency in phenylalanine hydroxylase and transaminase activity (Anderson et al.), 351
Phosphatase, alkaline, leukocyte, in Down's syndrome, induction of (McCoy and Ebadi) (Abst.), 835
Phosphorylation, oxidative, and recovery using mitochondria from human and rat placentas, method of (Graven) (Abst.), 849
Placental mitochondria, studies of: method of recovery and oxidative phosphorylation using mitochondria from human and rat placentas (Graven) (Abst.), 849
Plasma containing deferoxamine, measurement of iron and iron-binding capacity in (Gevirtz and Wasserman) (BCLO), 802
level, elevated, of factor V (proaccelerin) and tendency to thrombosis, studies on family with (Gaston), 367
transfusions, fresh, prednisone, 6-mercaptopurine, vincristine, and, treatment of chronic idiopathic thrombocytopenia with (Reiquam and Prosper), 885
in treatment of acute thrombocytopenic purpura (Reiquam and Prosper), 880

Plasma—Cont'd
tyrosine level, relation to weight gain of premature infants (Partington and Mathews), 749
Plasmacyte, bone marrow, values in childhood (Steiner and Pearson), 562
Platelet survival in Wiskott-Aldrich syndrome (Pearson et al.), 754
Poliovirus antibody three years after oral trivalent vaccine (Sabin strains) (Cabasso et al.), 199
vaccines, attenuated, grown in human diploid cell strains for immunization of infants (Pagano), 189
Portal hypertension, Gaucher's disease with: case report (Javett, Kew, and Liknaitsky) (BCLO), 810
Potassium sulfide, D-penicillamine, and diethyldithiocarbamate as decoppering agents, comparative effectiveness in hepatolenticular degeneration (Hsia et al.), 921
Prednisone and either 6-mercaptopurine or methotrexate, induction of remission in acute leukemia of childhood by combination of (Krivit et al.), 965
6-mercaptopurine, vincristine, and fresh plasma transfusions, treatment of chronic idiopathic thrombocytopenia with (Reiquam and Prosper), 885
Premature infants, relation of plasma tyrosine level to weight gain of (Partington and Mathews), 749
neonate, perinatal stress, and—effect of fluid and calorie deprivation on blood glucose (Beard et al.), 329
Prezygotic determinants in childhood leukemia (Borges, Nicklas, and Hamm) (Abst.), 837
Proaccelerin (factor V), elevated plasma level of, and tendency to thrombosis, studies on family with (Gaston), 367
Protein-bound iodine in human amniotic fluid (Kaufman) (BCLO), 990
Proteus mirabilis meningitis: report of two cases treated with ampicillin (Scherzer, Kaye, and Shinefield), 731
Pseudomonas aeruginosa, atypical, associated with cystic fibrosis of pancreas (Doggett et al.), 215
use of pyocine typing in investigation of nursery epidemic of (Fierer, Taylor, and Gezon) (Abst.), 841
Psychology of dwarfism, personality maturation and response to growth hormone treatment in hypopituitary dwarfs (Money and Pollitt), 381
Pulmonary capillary permeability and maturity of rabbits, relationship between (Taylor et al.) (Abst.), 837
vascular disease, progressive, in children with ventricular septal defects, diagnosis (Iverson, Linde, and Kegel), 594
resistance in newborn lamb, factors mediating decrease in (McMullen, Kittle, and Lauer) (Abst.), 836
Pulmonic valvular stenosis in infancy (Luke), 90
Purpura, acute thrombocytopenic, fresh plasma transfusions in treatment of (Reiquam and Prosper), 880
idiopathic thrombocytopenic, in childhood (Lusher and Zuelzer), 971
Pyelonephritis, progress in (Kass) (B. rev.), 321
Pyocine typing in investigation of nursery epidemic of *Pseudomonas aeruginosa* (Fierer, Taylor, and Gezon) (Abst.), 841

R

Radius, congenital absence or hypoplasia with ventricular septal defect: ventriculoradial dysplasia (Harris and Osborne), 265
Renal tubular dysfunction, studies of muscle cell composition in children with (Torres-Pinedo, Kooh, and Metcoff), 932
Respiratory distress syndrome, arterial blood gas tensions and acid-base balance in management of (Boston, Geller, and Smith), 74
failure of newborn infants, treatment of (Cook) (Editor's column), 327
studies in neonate, valved mask for (Silverman, Sinclair, and Buck) (BCLO), 468
Respirovirus infection, peripheral white blood count in (Portnoy et al.), 181
Resuscitation of asphyxiated fetal rhesus monkeys, hypothermia and (Daniel et al.), 45
of newborn rabbits, comparison of air and O_2 in hyperbaric chamber or by positive pressure ventilation (Campbell et al.), 153
Retardation, mental, facial abnormalities and, broad thumbs and broad great toes with (Johnson), 942
hyperuricemia, bilateral choreoathetosis, self-mutilation, and mental retardation: clinical syndrome and course in 6 males treated with uricosuric agents (Michener) (Abst.), 851
myotonic dystrophy, neglected cause of (Calderon), 423
Rhesus monkeys, asphyxiated fetal, hypothermia and resuscitation of (Daniel et al.), 45
Rheumatic diseases, response to metyrapone in children with (Ruvalcaba et al.), 257
Rickets, deficiency-type, due to decreased sensitivity to vitamin D (Soriano et al.), 227
Rubella, cardiovascular lesions in (Ainger) (Letter), 829
(Rowe) (Letter), 147
congenital encephalitis and persistent infection in (Michaels) (Abst.), 842
persistent infection of brain and liver (Blattner) (Comments), 997
pathology, fetal (Töndury and Smith), 867
Rubelliform vaccinia exanthem (Levin) (Letter), 494; (Cherry) (Reply), 494

S

Sabin strains, oral trivalent vaccine, poliovirus antibody three years after (Cabasso et al.), 199

Salivary secretion of ABH blood group substances in cystic fibrosis of pancreas (Virtanen) (BCLO), 139

Salmonella st. paul, production of O and H agglutinins by newborn infant infected with (Hodes et al.), 780

Scleredema of childhood (Bradford et al.), 391 (Kass, Hanson, and Patrick), 243

Secretion, salivary, of ABH blood group substances in cystic fibrosis of pancreas (Virtanen) (BCLO), 139

Selenium concentration in evaporated milk (Hadjimarkos) (BCLO), 470

Self-mutilation, hyperuricemia, bilateral choreoathetosis, and mental retardation: clinical syndrome and course in 6 males treated with uricosuric agents (Michener) (Abst.), 851

Septal defects, ventricular, diagnosis of progressive pulmonary vascular disease in children with (Iverson, Linde, and Kegel), 594

Septicemia and urinary tract infections due to *Escherichia coli* in male infants, outbreak of (Kenny et al.), 530

Serum enzyme measurements, diagnostic value of (Howell), 121

immunoglobulin measurements during first year of life and in immunoglobulin-deficiency states (Fulginiti et al.), 723

insulin, glucose, and free fatty acids in response to intravenous tolbutamide in normal children compared with chemically diabetic and frankly diabetic children, measurements of (Wohltmann et al.) (Abst.), 847

iron and iron-binding capacity, effect of deferoxamine on determination (Helfer and Rodgerson) (BCLO), 804

Shock associated with dengue infection (Cohen and Halstead), 448

Shwartzman reaction, generalized, induced with *E. coli* endotoxin, effect of cortisone on (Corrigan, Abildgaard, and Schulman) (Abst.), 844

Sickle cell trait, hereditary spherocytosis and, in Negro (Rodriguez et al.), 589

Sickled blood, studies on flow properties of (Chen and Whitten) (Abst.), 840

Skeletal malformations, congenital heart disease, and deafness: new syndrome? (Forney, Robinson, and Pascoe), 14

Skin infections and their complications in Indian children, prospective study of (Anthony, Perlman, and Wannamaker) (Abst.), 845

Smallpox vaccination, complications (Treitman) (Letter), 670; (Sussman and Grossman) (Reply), 670

Social and behavioral studies on hemophilic children and their families (Mattsson and Gross), 952

Social—Cont'd

services and community health, guide for referral of families to (Department of Maternal and Child Health, Harvard School of Public Health) (B. rev.), 492

Speech, development and disorders in children (Karlin, Karlin, and Gurren) (B. rev.), 827

Spherocytosis, hereditary, and sickle cell trait in Negro (Rodriguez et al.), 589

Stenosis, pulmonic valvular, in infancy (Luke), 90

Streptococcal pharyngitis, comparison of efficacy of phenoxymethyl penicillin and buffered penicillin G in treatment (Edmond et al.), 442

Stress, perinatal, and premature neonate, effect of fluid and calorie deprivation on blood glucose (Beard et al.), 329

Stunted growth and congenital telangiectatic erythema, syndrome of (Bloom), 103

Stuttering, syndrome of (Andrews and Harris) (B. rev.), 827

Surgery, pediatric, atlas of (White) (B. rev.), 1002

Syndrome, Adams-Stokes, presumably due to mumps myocarditis, atrioventricular dissociation associated with (Thompson and Nolan), 601

Aldrich, development of malignancy in course of (ten Bensel, Stadlan, and Krivit), 761

associated with extreme hyperuricemia in leukemia (Sinks et al.), 578

of congenital telangiectatic erythema and stunted growth (Bloom), 103

Cushing's, with nodular adrenal hyperplasia in infancy (Klevit et al.), 912

Down's, induction of leukocyte alkaline phosphatase in (McCoy and Ebadi) (Abst.), 835

nail-patella (Lucas and Opitz), 273

of stuttering (Andrews and Harris) (B. rev.), 827

Tietze's: report of case with juvenile onset (Calabro and Marchesano) (BCLO), 985

Wiskott-Aldrich, platelet survival in (Pearson et al.), 754

T

Tachycardia, paroxysmal ventricular (Chandra) (Letter), 1003

Teeth, effect of diverse amounts of tetracycline on fluorescence and coloration of (Bevelander and Nakahara), 114

Telangiectatic erythema, congenital, and stunted growth, syndrome of (Bloom), 103

Temperature of umbilicus (Kravitz), 418

Teratopathic aspects of endocardial fibroelastosis, further inquiry into (St. Geme, Eisenklam, and Noren) (Abst.), 843

Tetanus antitoxin in treatment of tetanus in children (Athavale and Pai), 289

Tetracycline, effect of diverse amounts on fluorescence and coloration of teeth (Bevelander and Nakahara), 114
therapy, complications (Olson and Riley), 783
Thailand, manifestations of dengue hemorrhagic fever in, in 1964 (Cohen and Halstead), 448
Thrombectomy, iliofemoral venous, in child with coagulation abnormality (Mack, Hartmann, and Sauvage), 374
Thrombocytopenia, chronic idiopathic; treatment with prednisone, 6-mercaptopurine, vincristine, and fresh plasma transfusions (Reiquam and Prosper), 885
in newborn infants (Fleury) (Letter), 829
Thrombocytopenic purpura, acute, fresh plasma transfusions in treatment (Reiquam and Prosper), 880
idiopathic, in childhood (Lusher and Zuelzer), 971
Thrombophlebitis secondary to methysergide maleate therapy (Fenichel and Battiata), 632
Thrombosis, studies on family with elevated plasma level of factor V (proaccelerin) and tendency to (Gaston), 367
Thumbs, broad, and broad great toes with facial abnormalities and mental retardation (Johnson), 942
Thyroid function, neonatal—free thyroxine in infancy (Marks, Hamlin, and Zack), 559
Tietze's syndrome, report of case with juvenile onset (Calabro and Marchesano) (BCLO), 985
Tissues, whole body and various rat, in vivo determination of intracellular hydrogen ion concentrations of: pH_i (Addanki et al.) (Abst.), 848
Toes, great, broad, and broad thumbs, with facial abnormalities and mental retardation (Johnson), 942
Tolbutamide, intravenous, in normal children compared with chemically diabetic and frankly diabetic children, measurements of serum insulin, glucose, and free fatty acids in response to (Wohltmann et al.) (Abst.), 847
Toxicity, adrenal, associated with administration of anticonvulsant drug (Camacho et al.) (Abst.), 852
Trait, sickle cell, and hereditary spherocytosis in Negro (Rodriguez et al.), 589
Transaminase, phenylalanine, activity, deficiency, in atypical phenylketonuric heterozygote (Anderson et al.), 351
Transfusions, fresh plasma, prednisone, 6-mercaptopurine, vincristine, and, treatment of chronic idiopathic thrombocytopenia by (Reiquam and Prosper), 885
in treatment of acute thrombocytopenic purpura (Reiquam and Prosper), 880
Trauma, nonpenetrating, to heart (Goldring et al.), 677
Tricuspid valve, Ebstein's anomaly of; cyanotic congenital heart disease (Farber and Vawter) (CPC), 817
Triiodothyronine, effect on neonatal hyperbilirubinemia (Morrow et al.), 413
L-Tryptophan metabolism in phenylketonuria (Yarbro and Anderson), 895
Tyrosine level, plasma, relation to weight gain of premature infants (Partington and Mathews), 749

U

Umbilicus, temperature of (Kravitz), 418
Urethral cytology, quantitation of: "in vivo bioassay" for estrogenic effect (Preeyasombat and Kenny) (Abst.), 850
Uricosuric agents, clinical syndrome of, hyperuricemia, bilateral choreoathetosis, self-mutilation, and mental retardation in 6 males treated with (Michener) (Abst.), 851
Urinary tract infections in infancy and childhood, studies of (Andersen), 542
and septicemia due to *Escherichia coli* in male infants, outbreak of (Kenny et al.), 530
Urine, acute glomerulonephritis without abnormality of (Albert, Leeming, and Scaglione), 525

V

Vaccination, smallpox, complications (Treitman) (Letter), 670; (Sussman and Grossman) (Reply), 670
Vaccine, oral trivalent (Sabin strains), poliovirus antibody three years after (Cabasso et al.), 199
poliovirus, attenuated, grown in human diploid cell strains for immunization of infants (Pagano), 189
Vaccinia exanthem, rubelliform (Levin) (Letter), 494; (Cherry) (Reply), 494
family epidemic of (Horwitz and Solomon) (BCLO), 308
Valvular pulmonic stenosis in infancy (Luke), 90
Vascular disease, progressive pulmonary, in children with ventricular septal defects, diagnosis (Iverson, Linde, and Kegel), 594
resistance, pulmonary, in newborn lamb, factors mediating decrease in (McMullen, Kittle, and Lauer) (Abst.), 836
Vectorcardiography in newborn and small infants, modified electrode and lead assembly for (Ainger and Campbell) (BCLO), 141
Venous thrombectomy, iliofemoral, in child with coagulation abnormality (Mack, Hartmann, and Sauvage), 374
Ventilation, positive pressure, in resuscitation of newborn rabbits, comparison of air and O_2 in hyperbaric chamber or by (Campbell et al.), 153

Ventricular septal defect, congenital absence or hypoplasia of radius with: ventriculoradial dysplasia (Harris and Osborne), 265
diagnosis of progressive pulmonary vascular disease in children with (Iverson, Linde, and Kegel), 594
tachycardia, paroxysmal (Chandra) (Letter), 1003
Vibrio fetus, perinatal mortality caused by (Eden), 297
Vincristine, prednisone, 6-mercaptopurine, and fresh plasma transfusions, treatment of chronic idiopathic thrombocytopenia with (Reiquam and Prosper), 885
Virologic studies of exanthems (Cherry and Jahn), 204
Viruria, demonstration in generalized fatal herpes simplex infection in newborn infant (Chang, Solomon, and Weinstein) (BCLO), 473
Virus infection, Coxsackie (Blattner) (Comments), 315
Visual disturbances in cystic fibrosis following chloramphenicol administration (Huang et al.), 32
Vitamin B_{12} studies in myelogenous leukemia of childhood (Skaff et al.), 890
Vitamin—Cont'd
D, deficiency-type rickets due to decreased sensitivity to (Soriano et al.), 227
K, absorption from colon in newborn infant (Aballi, Howard, and Triplett) (BCLO), 305
K_1 in pregnancy, effect on bilirubin metabolism and coagulation mechanism in newborn (Owen et al.) (Abst.), 850

W

Weight gain of premature infants, relation of plasma tyrosine level to (Partington and Mathews), 749
low birth, infants, early versus delayed feeding of: effects on physiologic jaundice (Wennberg, Schwartz, and Sweet), 860
Well-baby care of 530 infants (Traisman, Traisman, and Gatti), 608
White blood count, peripheral, in respirovirus infection (Portnoy et al.), 181
mouth; hereditary leukokeratosis (Scott), 768
Width-weight tables, revised, and normal body measurements in graphic form, charts of (Pryor), 615
Wiskott-Aldrich syndrome, platelet survival in (Pearson et al.), 754

Electroencephalographic responses to sound, computer-averaged, in diagnosis of infantile deafness (Barnet and Lodge), 753
Elliptocytosis, hereditary, and congenital toxoplasmosis, cholelithiasis in newborn with (Summerell) (BCLO), 292
Emergency home management of poison ingestions, program for distribution of ipecac syrup (Alpert and Heagarty), 142
Emetic, ipecac syrup as, in poison control (Shirkey) (Editorial comment), 139
Encephalopathy, lead, in children, treatment (Coffin et al.), 198
Endocardial fibroelastosis, primary, thromboembolic complications in (Branch and Castle), 250
Endurance, maximal, of normal children compared with those with congenital heart disease in respect to (Goldberg, Weiss, and Adams), 46

Eosinophilia and erythroid hypoplasia of bone marrow, with eczema, reactive hyperplasia of lymph nodes, bronchopneumonia, fibrous pleurisy, chronic cystitis, healed pyelonephritis, case (Farber and Vawter) (CPC), 163

Epidemic and immunity survey, poliomyelitis in Laos (Olness, Halstead, and Snitbahn), 316

streptococcal, mass prophylaxis in isolated population (Zimmerman et al.), 40

Epidemiologic study of molluscum contagiosum in Anchorage, Alaska (Overfield and Brody), 640

Erythroblastosis, amniotic fluid of, pigment in identified as bilirubin (Brazie, Ibbott, and Bowes), 354

Erythropoietin, recent advances in hematology (Pearson), 466

Escherichia coli, streptomycin sensitivity of, in patients with sepsis: newborn and older children compared (Fine et al.), 1079

Estrogen and progesterone, effects on viscosity of canine saliva (Dworkin and Mendelsohn) (BCLO), 287

Eversion of eyelids in newborn, without apparent cause (Stillerman, Emanuel, and Padorr) (BCLO), 656

Exchange transfusion before surgery, in iron deficiency anemia (Purugganan and Naiman) (BCLO), 804

unnecessary: study of RH hemolytic disease of newborn (Dunn), 829

Excretion, catecholamine metabolite, of infants with heart failure (Lees), 259

virus, failure of l-adamantanamine to stop; hypogammaglobulinemia in infant with rubella syndrome (Plotkin, Klaus, and Whitely), 1085

Extrapyramidal dysfunction in infant of schizophrenic mother (Hill, Desmond, and Kay), 589

Eyelids, eversion in newborn without apparent cause (Stillerman, Emanuel, and Padorr) (BCLO), 656

F

Factor VIII concentrates, recent advances in hematology (Pearson), 466

Familial mongolism by G/G mosaic carrier (Waxman and Arakaki), 274

and nonfamilial benign hematuria (McConville, West, and McAdams), 207

Fatty metamorphosis of viscera, familial metabolic disorder with (Peremans et al.), 1108

Fellowships and residencies, list of, 509

Fibroelastosis, primary endocardial, thromboembolic complications in (Branch and Castle), 250

Field surveys, age assessments in, of tropical children (Jelliffe), 826

Fluid intake and output, in sickle cell anemia, observations on (Saxena, Scott, and Ferguson), 220

G

G/G mosaic carrier, familial mongolism by (Waxman and Arakaki), 274

Galactosemia, red cell survival in (Wang and Desforges), 619

screening newborn for (Gatti, Manfield, and Hsia) (BCLO), 1126

Gastrointestinal malabsorption of glucose-galactose (Marks, Norton, and Fordtran), 225

Gastrostomy tube, intestinal obstruction from, in infants (Fonkalsrud), (BCLO), 809

Genetics and disease (Knudson) (B. rev.), 693

human, new directions in; symposium from birth defects original article series (Bergsman) (B. rev.), 325
